

Common Support Questions

Synthetic enterprise knowledge-base content for the Enterprise Knowledge & Support Copilot.

Payments

Q: What should I do if payment is pending? A: Verify server-side payment status and reconciliation before asking the customer to retry.

Q: Can I rely on a screenshot showing payment success? A: No. Use the authoritative server-side payment status.

Orders

Q: Can an order be cancelled after shipment? A: Normally the return process is used after shipment handoff.

Q: What identifier helps support investigate? A: `order_id`, `payment_id`, or `tracking_id` depending on the issue.

Security

Q: Can support ask for a customer's password? A: No. Passwords, OTPs, and recovery codes must never be requested.
